

STUDENT INTERVENTION MATCHING FORM (SIM-Form)

Instructions: The SIM-Form is designed to match Tier 2 interventions to students identified as emotionally or behaviorally at-risk by the universal screening process. A teacher, other staff person, or team who is familiar with the student should complete the SIM. This form includes statements assessing a variety of characteristics associated with students that align well with the active ingredients of evidence-based Tier 2 interventions. Your job is to answer whether each statement is very true, true, untrue, or very untrue about the target student. For statements that you don't know, simply check the box that indicates so. Your answers will then be scored to determine which evidence-based Tier 2 intervention, or interventions, should be considered for implementation to address the student's emotional and behavioral needs.
