

00:00
let's discuss priming what is priming
00:02
priming is reminding the student of how
00:05
and when to use a taught skill it's
00:07
previewing or practicing activities or
00:10
information and it occurs before the
00:12
student participates in the activity the
00:15
purpose of priming is to familiarize the
00:17
student with the material before it's
00:19
used and or familiarize the student with
00:22
an activity before it occurs
00:24
priming introduces predictability into
00:26
the information or activity thereby
00:29
reducing stress and anxiety and
00:31
increasing student success priming can
00:35
take place in the classroom the home or
00:37
the community it is most effective when
00:39
it is built into the students routine
00:42
here are some benefits of priming it
00:44
helps the student to be familiar with
00:47
expectations before they occur it
00:48
increases student success in our
00:50
interactions with others and reduces
00:53
behavioral problems
00:54
it increases student confidence and it
00:57
improves academic and behavioral skills
