

Transcript-Priming Overview

00:05

Naomi so tomorrow we're going to be

00:08

doing a lesson on caterpillars and so

00:11

this book is gonna go along with

00:13

caterpillars I want you to look through

00:14

it I want you to look at the headings

00:16

and the pictures and the maps and see if

00:19

there's any words in there that you

00:22

don't know or anything you don't

00:23

understand so that tomorrow when we talk

00:25

about it you kind of already have an

00:27

idea okay here you go

00:45

hey Colin look we have a study guide for

00:48

your science test this week and your science

00:51

test has three parts to it

00:54

so let's map it out on how we're gonna

00:56

study for that okay okay so on Monday

00:59

you're gonna complete your science study

01:02

guide and then right here on Tuesday what

01:05

does that say performance tests

01:07

performance tests or the performance

01:09

tests will be on Tuesday and then on

01:12

Wednesday we have what the written

01:15

test and then on Thursday you're gonna

01:18

finish it up with a much multiple choice

01:20

test got it

01:22

got okay so that's science on Monday

01:25

finish the science study got on Monday

01:27

Performance test on Tuesday written test on

01:31

Wednesday multiple-choice test on

01:34

Thursday got any questions no all right

01:37

and understand how we are going to study for that and

01:39

breakdown yes all right give me fist bump
