

SCATTERPLOT DATA SHEET - INTERVAL

Student: _____ Observer: _____

Setting: _____ School: _____

	Behavior(s)	Definition (observable and measurable terms)
1.		
2.		
3.		

Directions: Record the behavior(s) and definition in observable and measurable terms for each behavior. List the student's schedule under the Activity column along with the start and end time of each activity under the Time column. Record the date. Record data for each behavior, using the key below. Record (+) if the behavior occurred at any time during the interval.

Behavior occurred	+	Behavior did not occur	-	Data not collected	NA
-------------------	---	------------------------	---	--------------------	----

Start Time	End Time	Activity	Date:			Date:			Date:			Date:			Date:				
			1	2	3	1	2	3	1	2	3	1	2	3	1	2	3
