DURATION DATA SHEET

Student:		Observer:	
Setting:		School:	

Behavior Definition:

Directions: Record the date. Record the time the behavior begins and ends. Sum the total amount of time the behavior occurred and record under duration. To calculate Average Duration for a day, sum the duration of all episodes of the behavior (minutes). Divide the sum of duration by the total number of episodes for the day. Record the average duration for the day.

DATE:		DATE:		DATE:		DATE:		DATE:
